Literature Search Summary

A literature search was conducted in December 2013 and updated in December 2015 to identify evidence for the ACR Appropriateness Criteria® Nasal Cavity and Paranasal Sinus Cancers topic. Using the search strategies described above, 292 articles were found. Six articles were used in the topic. Two hundred eighty-six articles were not used due to either poor study design, the articles were not relevant or generalizable to the topic, or the results were unclear, misinterpreted, or biased.

The author added 54 citations from bibliographies, websites, or books that were not found in the literature search.
