Literature Search Summary

A literature search was conducted in February and July 2015 and updated in June 2016 to identify evidence for the ACR Appropriateness Criteria® Monitoring Response to Neoadjuvant Systemic Therapy for Breast Cancer topic. Using the search strategies described above, 576 articles were found. Eighty-seven articles were used in the topic. The remaining articles were not used due to either poor study design, the articles were not relevant or generalizable to the topic, or the results were unclear or biased.

The author added 40 citations from bibliographies, websites, or books that were not found in the literature searches, including 13 articles outside of the search date ranges.

One citation is a supporting document that was added by staff.
