**Literature Search Summary**

A literature search was conducted in May 2015 and updated in May 2017 to identify evidence for the ACR Appropriateness Criteria® *Staging of Pancreatic Ductal Adenocarcinoma* topic. Using the search strategy described above, 355 articles were found. Twenty-two articles were used in the topic. The remaining articles were not used due to either poor study design, the articles were not relevant or generalizable to the topic, or the results were unclear, misinterpreted, or biased.

The author added 33 citations from bibliographies, websites, or books that were not found in the literature search, including 21 articles outside of the search date ranges.

Two citations are supporting documents that were added by staff.
