End date: December 2013

Database: Ovid MEDLINE(R) In-Process & Other Non-Indexed Citations, Ovid MEDLINE(R) Daily, Ovid MEDLINE(R) and Ovid OLDMEDLINE(R) <1946 to Present>
Search Strategy:
--------------------------------------------------------------------------------
1    Colonic Neoplasms/ (58009)
2    Neoplasm Staging/ (117222)
3    exp diagnostic imaging/ (1677199)
4    1 and 2 and 3 (198)
5    limit 4 to "all child (0 to 18 years)" (4)
6    4 not 5 (194)
7    limit 6 to (abstracts and english language and humans and yr="2010 -Current") (37)
8    limit 7 to case reports (9)
9    7 not 8 (28)
--------------------------------------------------------------------------------
A new literature search was conducted in September 2013 and updated in January 2014 as well as October 2015 to identify additional evidence published since the ACR Appropriateness Criteria® Pretreatment Staging
Colorectal Cancer topic was finalized. Using the search strategies described above, 379 articles were found. Fifty articles were added to the bibliography. Three hundred twenty-nine articles were not used due to either poor study design, the articles were not relevant or generalizable to the topic, the results were unclear, misinterpreted, or biased, or the articles were already cited in the original bibliography.

The author added 27 citations from bibliographies, websites, or books that were not found in the new literature search.

One citation is a supporting document that was added by staff.
